

## *Hygiene guidelines*

**Dear guests,**

the Corona pandemic has burdened us for a long time with restrictions in our daily lives. The state government of Baden-Württemberg has now decided to lift most of the restrictions from 03 April 2022.

In future, only FFP2 masks will be compulsory for the shuttle to our Renchtalhütte and for all public transport.

In the hotel it is recommended to continue wearing the mask - however, this recommendation is not obligatory. The access regulations with 3-G proof will also be dropped, so that you can arrive at our hotel without proof.

Dear guests and friends

We ask you to continue to be mindful of the state government's recommendations and look forward to welcoming you back with a big piece of "more normality". We will continue to maintain our hygiene standards as usual and regularly ventilate public areas and disinfect contact surfaces.

We are happy to summarise the recommendations again for you:

- *FAQ*

- Recommendation to keep the minimum distance to other persons.
- Recommendation to wear mouth and nose protection indoors
- Mandatory wearing of masks during shuttle transfers / in public transport vehicles

We are looking forward to your visit!

**Sincerely**

**Your Meinrad Schmiederer & all the Dollenbergers**
